Harmonic Module

Bioelectric Stupa

Biofeedback Bliss Temple

Feedback Modality	Feedback Outputs	Online?	E Player/i phone plug-in?	Media/TV /Cable?
GDV - Fractality in the air measure, room capacitance, Collective and/or individual groups: capacitive accelerometrics (Bentov) Comparable to individual aura growth	Ritual/entertainment event peak charge moment, evidences when you are " in the zone".	Possibly after hand held version of space meter	< same	< Probably not for lack of serious CPU
Heart entrainment - Harmonic Module HeartTuner - HeartLink group entrainment system (transducers and software). Also potential for lasarium lissajous lambdoma - light show feedback for heart entrainment. Also intent amplifiers (intentionscaler.com) Emotionally re-engineered audio.	Feedback by audience sector for heart coherence and (separately) heart entrainment (musical EKG phaselock)	<i>Note A:Preamp costs could get down to 200 -300 USD per person-distributed (web) heart linkups have great value</i>	< same	< probably not for lack of serious CPU

<p>Breath Entrainment/HRV (Heart Rate Variability) Transducers Economic HRV transducers as simple finger clip plythismogram or wrist strap/mounts in your wristwatch. (HRV & EKG and possibly EEG transducers could be bluetooth/wireless)</p>	<p>Average breath rate/breath coherence entrainment. Fractal breath/HRV harmonics predict immune repair and peak experience.</p>	<p>Yes Cheap Transducers</p>	<p>Yes</p>	<p>Yes</p>
<p>Microwave/Infra Red Broadband Scanner - Antennae pick up "Horn" (Bob D)</p>	<p>Can locate individually and by audience group where metabolic fire is focused - even to locate whether the crown chakka or the heart chakka is "on fire".</p>	<p>Even tho transducer and preamp could be separate from CPU-transducer costs may prohibit each user type version.</p>	<p><same</p>	<p><same</p>
<p>EEG - Brainwave Harmonic Entrainment Individual and collective "BlissTuner" experience</p>	<p>EEG biofeedback brainwave peak perception training both for individuals in their seats and for group brain coherence and entrainment training.</p>	<p>Preamp costs issues- preamp may in quantity get down to 300-400USD. Distributed Brainwave Feedback has great power of group work.</p>	<p>< same</p>	<p>lack of CPU issue</p>
<p>Voice Harmonic Analysis "The signature sound works"/"Biosonics"/Biowaves.com Economic headphone microphone to feedback critical missing voice harmonic frequencies for healing and develop group audio harmonic entrainment and collective audio coherence.</p>	<p>Voice harmonic diagnosis for individuals and groups - replaced audio harmonics to tune group collective</p>	<p>Yes</p>	<p>Yes</p>	<p>No (no CPU?)</p>

	mind experience.			
Colour and Coherence Light Healing Prismatic Sensorium Voice harmonic analysis will indicate which critical coherent light frequency can heal - both focused on an individual and for the collective group light show. (Also linked to EKG laser lissajous note above)	Will show which critical frequency light show and potentially geometric should be projected for group peak experience.	Screen might project light-coupling that to transducer reasonable software requirement	<same for Iphone	no? lack CPU for most cable TV (not real interactive)
Holoform/Bio Pacer - Library of bioactive holoforms - sonic phase coherent holography for emotional engineering (Bob D)	Sonic edutainment hologram to be phase locked to EKG and EEG "Emotion by Intention".	Web Yes - per Bob	Possible	No- without CPU?
