# Mexico Retreat & Pyramid Tour

4 Day Seminar with Dan Winter – Sacred Geometry September 26 – 29, 2003

Held at a beautiful ecological retreat centre in Tulum – just South of Cancun. Followed by an optional study tour with Dan to the surrounding magnificent Mayan sacred sites and Pyramids. 3 day tour 30th September – October 2nd.

NB: On October 3rd we depart for our PERU 10 day tour.

## MEXICO RETREAT at Maya Tulum

Arrive 25th September, 2003

Fly into Cancun International Airport. Many flights to Cancun are direct from the USA, Europe or connect from Mexico City. The resort is one and a half hours drive south from Cancun's International Airport. Regular bus services drive down the coast to Tulum from the airport. It is a pleasant drive – and the road is very new!

Maya Tulum is a beautiful retreat located on the Caribbean seashore of Mexico's Yucatan Peninsula. The combination of nature, isolation, comfort and easy access from the USA and Europe make it the perfect place for our 4 day seminar. The crystal clear, warm Caribbean sea invites you to swim or snorkel. Unspoiled white sand beaches extend for miles. Walk through the jungle to visit a "cenote" (fresh water jungle pool), explore the "Sian Ka'an" Biosphere Reserve, visit yesterday's great Maya cities.

Luscious tropical gardens grow between the cabañas, which are built in the traditional Maya style to blend with the surroundings. Tulum's waterfront resorts consist of free standing thatch-roofed huts cooled by nothing more than a strong ocean breeze. Maya Tulum celebrates each meal in an exquisite round palapa, a huge cabaña built on two levels with marble floors and white limestone walls. The food is carefully prepared and healthy, along with a good selection of seafood. Yoga and massage is always available.

## AFTER OUR RETREAT – JOIN US FOR OUR THREE DAY TOUR:

September 30th – 2nd October

The Sian Ka'an Biosphere Reserve is a protected natural area with unspoiled rainforest and vast lagoons. Sian Ka'an (which means "where the sky is born" in Mayan) is home to hundreds of species,

birds, peccaries, tapirs, manatees, iguanas, fish and sea turtles.

What are the best Maya ruin site to visit? The answer is: Chichen Itza, Uxmal, Tulum and Coba

So the three day tour of Mexico will focus on these locations. The famous sacred sites of Chichen Itza, Uxmal, Konhulnich, Xpujil and Chicanná are a few hours drive from Maya Tulum. They are magnificent examples of the science and art of the ancient Maya.

Chichen Itza is recommended as it has a large pyramid temple and the biggest ballcourt in Mesoamerica. Much of this area has been restored and it is exhilarating to climb the El Castillo Pyramid.

Uxmal is one of the most well known of the Maya cities, and rated by many archaeologists as the finest. It is permitted to climb the largest structure, the Pyramid of the Magician, and the view from the top is well worth the effort.

### The Pyramid of the Magician and The Great Pyramid

A giant Chac mask marks the entrance and Chac's mouth is the door!

Cobá Deep in the Yucatecan jungle- ancient roads converge at a long lost city. Cobá is beautiful and mysterious. Its name means "ruffled waters", derived from the five lakes in the vicinity, and it is one of the oldest Mayan settlements on the peninsular. It also has the highest pyramid in the area. Bring a Panama hat and imagine you're Indiana Jones...! Walk the paths and experience the powerful meditative energy. Climb to the top of the pyramids and sit quietly enjoying magnificent views over miles of virgin jungle.
